Higher education in Estonia

I cycle: Bachelor's

The nominal length of the academic Bachelor's study programme is 3 years and studies give a total of 180 ECTS credit points. Graduates from Bachelor's programmes are awarded a Bachelor's degree.

The nominal length of the first cycle professional higher education studies lasts for 3-4 years (180-240 ECTS credits) leading to a professional higher education diploma.

II cycle: Master's

The nominal length of Master's studies is 1-2 years (60-120 ECTS credits), but together with Bachelor's studies, they should last no less than five years (300 ECTS credits).

In addition to the two-cycle general structure, the study programmes for medicine and veterinarian studies are a single long-cycle studies with a nominal length of 5-6 years (300-360 ECTS credits), resulting in a masters degree.

III cycle: Doctoral

The nominal length of Doctoral studies is 3-4 years, after which the postgraduate Doctoral degree will be awarded.

Quality

Quality assurance in Estonia is in full accordance with the European standards (ESG) and is applied to all higher education institutions, both public and private. Information on the accreditation and recognition decisions is provided by the Estonian Higher Education Quality Agency and the Estonian ENIC/NARIC, www.archimedes.ee/enic/en/

Enrolment

All applicants are required to have a qualification giving them access to university studies in their home country. In most cases, when applying, you need to present your application, previous education diploma (Bachelor's diploma) and transcripts. You also have to present proof of knowledge in English. All internationally recognised language proficiency tests are accepted (like TOEFL or IELTS), though some institutions may also run individual language tests.

Depending on the institution and programme, there may be additional entrance tests, such as an interview, amwritten essay, a portfolio etc. Some universities have an application fee of 30-100 euros. All universities with programmes in English use the online system www.estonia.dreamapply.com for applying. Therefore, it is easy – you can apply for all the schools and programmes using just one application and one website!

Visa and temporary residence permit

Check out Study in Estonia's Road Map for coming to Estonia: Visa and Temporary Residence Permit for Studying (TRP) at:

www.studyinestonia.ee/visa-and-residence-permit

Important websites:

Estonian Police and Border Guard Board:

www.politsei.ee/en

Estonian Ministry of Foreign Affairs: www.vm.ee/en

Financing your studies

There are many scholarships available for international Master's students! In addition, there are several programmes with tuition fee waivers to study free of charge! Applicants apply for a scholarship through their university. More info:

www.studyinestonia.ee/scholarships

During your studies, you are allowed to work full time and stay in the country for 6 months after you graduate to look for a job. Monthly living costs are about 300-500 euros in addition to housing costs. Monthly rent for dormitory is 70-100 euros, rent for one bedroom apartment is about 250-400 euros.

You can find guide to living and working in Estonia from

www.workinestonia.com website.

Deadlines

The academic year starts at the beginning of September and is divided into two semesters. There is only one admission per academic year.
